Brand Manifesto

Our Brand Manifesto is the public statement of our principles, as well as an expression of our roadmap.

Our higher purpose includes creating Connections that Inspire.

We have been connecting countries and improving the quality of life of millions of people for 50 years. That is our great responsibility, and we accept it by challenging ourselves, our partners, and our allies to reach the level of excellence that has earned us the trust of everyone. To honor the road travelled, today we must recommit ourselves to the work that lies ahead.

We realize that we are all part of a whole. Humankind and the planet demand ever-greater challenges. Our efforts must be focused on transforming the experience gained into new responses to new challenges, understanding that, whenever we connect one point with another, we are connecting people, making each connection an inspiring act.

Brand Manifesto

If we understand that we all are one and the same, there is connection.

If we realize that our planet is fragile and needs us, there is connection.

If we understand that our actions, however small, have an impact, there is connection.

If we discover that the change that we want for the world lies in each of us, there is connection.

If we are convinced that our well-being is linked to everyone else's, there is connection.

If we know that excellence is the result of the effort we put into each act of our lives, there is connection.

If we are committed to act constructively and responsibly in the decisions we make, there is connection.

If we are inspired to know that we are made for great challenges, there is connection.

After half a century, we have renewed ourselves by creating one connection after another. Without borders. Without barriers.

This is our legacy to the new generations.

We are convinced that if there is connection, there is life. Let's celebrate!

ISA, connections that inspire.

Our brand slogan:

CONNECTIONS
THAT INSPIRE

Our Brand Slogan synthesizes our higher purpose. This is a strategic communication tool that can be used together with our Logo or alone.
You will always see it capitalized.

If you need to type it in a phrase, capitalize it, in the same font in which you are typing.

Our Brand Slogan captures our core communication message. We will make sure to make this Brand Slogan relevant, including it in all our moments of truth, communications, and institutional settings.

Our Logo

Our logo is a highly visually modern handmade signature with wavy and smooth shapes, without sharp edges, that expresses our organization's ability to inspire connections.

It is a seal that attracts and translates into closeness.

Authorized versions

We must create a versatile expression of our logo, reflecting the multiculturalism of Latin America.

Version recommended for use on white surfaces.

Our Fonts

We have chosen specialized fonts,
appropriate for each media.

For our printed publications, we will combine Amsi Pro and Trade Gothic.

Also, you must use these fonts in the design of editorial pieces, reports, PDF files, books, and brochures, regardless of whether they will be posted on the web.

You should use these fonts in the design of editorial pieces, reports, PDF files, books, and brochures, regardless of whether they will be posted on the web.

Our Fonts

For our web environments and Microsoft Office suite documents, we use **Tahoma**. This font is by default installed in the different versions of operating systems and browsers. It is ideal for the design of digital elements: web pages, landing pages, banners, menus, buttons, and web texts. You can also use it to create documents such as PowerPoint presentations, Excel spreadsheets, and letters or minutes in Word.

Use the different weights of this font family to separate headings and highlights from the body text.
